

EV-DMX-AMP-8CH

DMX 8 Channel Signal Amplifier Distribution

- DMX Signal Amplifier helps to distribute Master signals to 8 slaves
- Used to Extend DMS signal distance or multi channel distribution
- Used with DMX Master, i.e EV-DMX512 to connect to multiple slave, i.e. EV-DMX-MOD-2A
- Dimensions: L 7.8" x 4.7" W x H 2.2" (L198x W120x H56mm), 14oz Weight
- Supply voltage: DC12V
- Working temperature: -20-60 °C
- 1 year warranty
