

EV-LED-T5-21

LED F13T5 (Eq to 13W CFL) Tube Lamp 7W 21 inch 10-30VDC

- Latest Generation, LED replacement for 21" F13T5 fluorescent tubes @ 10-30V
- Neutral White 4200-4500K, CRI > 75, Frosted Lens, 770LM \pm 10%, 120 degree angle
- The advantage is ultra-long life, and half the electricity use of CFL florescent tubes - Perfect for RV, Marine, Trailer conversions. No Mercury, No UV or IR radiation, low heat.
- You must remove the ballast, and wire 12V direct to the Tube connector (see instructions). If you need 110V, to convert the Ballast to LED Driver, order a EV-12V-1000-12D LED Driver.
- Base: G5, Aluminum Heatsink
- Input: 10-30V AC/DC, 7W
- Length 517mm 20.35" (531 inc pins) , 0.69" (17.5mm) diameter
- Approvals: CE, RoHS
- Life: 35,000 hours
- 2 year warranty
